

6/8/10 INCH COMPACT TURNING CENTERS WITH Y-AXES

Lynx

2100LY / LSY • 2600Y/SY

DN SOLUTIONS

Lynx 2100LY · 2600Y SERIES

The Lynx 2100LY is a new Y-axis model from the Lynx 2100 series and enables complex parts to be machined in a single setup. The Lynx 2600Y has a 380mm (max) machining diameter and has upgraded structural rigidity/accuracy to increase its machining capabilities and productivity. High precision off-center machining is easy to achieve and productivity gains, due to a significant reduction in cutting and non-cutting times when machining complex parts, can be realised.

MACHINE COMPLEX SHAPES IN ONE SETUP

The Y-axis 105mm(± 52.5 mm) and sub-spindle enable complex parts, with a range of different features and details, to be machined faster and easier.

HIGH RELIABILITY

The machines' excellent reliability is due to the adoption of wider support structures, more stable beds, low vibration/low noise producing spindles, servo-driven turrets, and a full slideway covers that prevent coolant leaks and chips from penetrating the machine.

IMPROVED USER CONVENIENCE

The new EZ work and hot keys enable the user to operate peripheral devices quickly and conveniently. User convenience has been further enhanced with grease type lubrication and CNC tailstocks

BASIC STRUCTURE

A stable, highly-rigid bed structure and the adoption of roller type LM guide on all axes improve durability and ensure high accuracy machining.

Feed axes configuration

High-productivity is achieved with a process-intensive structure comprising opposing spindles and upper and lower turrets.

Model	Chuck size	Travel distance (mm(inch))			Rapid traverse (m/min(ipm))		
		X axis	Y axis	Z axis	X axis	Y axis	Z axis
Lynx 2100LYA/LSYA	6 inch	205 (8.1)	105 (4.1)	560 (22.0)	30 (1.2)	10 (0.4)	36 (0.4)
Lynx 2100LYB/LSYB	8 inch						
Lynx 2600V/SY	10 inch	250 (9.8)	105 (4.1)	680 (26.8)	30 (1.2)	10 (0.4)	30 (1.2)

Multi-tasking functions

The combined functions of a spindle, a sub-spindle, a Y-axis and milling capabilities are greater than the combined machining capabilities and productivity generated by two, or more, 'general' machines.

Reduced production lead time

25 %

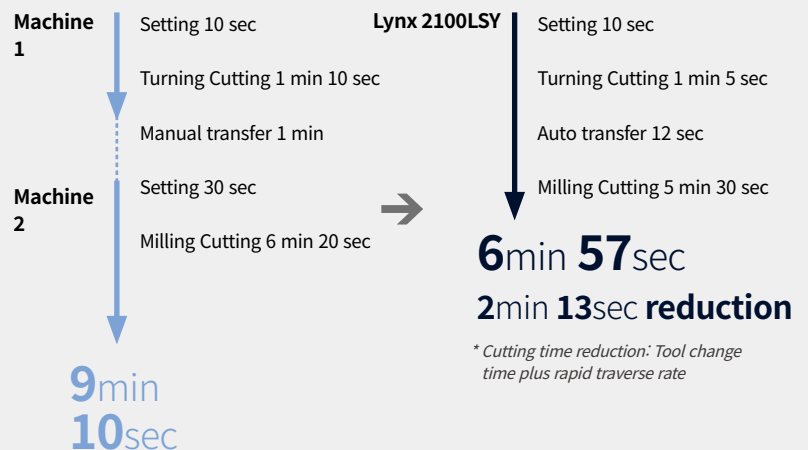

Workpiece : Machinery

Lynx 2100 Series with Sub-spindle and Y-axis, enables 'One Hit' machining

Save time...reduce labor...achieve higher accuracies!
 2 set-up / 2 operators 1 set-up / 1 operator

MACHINING AREA

The Lynx 2100LY and Lynx 2600Y series comprises 4 models with different chuck sizes and either sub-spindles or tailstocks.

Model	Max. Turning diameter (a)	Max. Turning length (b)	Sub spindle
Lynx 2100LYA / LYB	300 mm* (11.8 inch)	510 mm (20.1 inch)	X
Lynx 2100LSYA / LSYB			O
Lynx 2600Y	380 mm** (15.0 inch)	610 mm (24.0 inch)	X
Lynx 2600SY			O

* Max. Turning diameter is 236mm (9.3 inch) if optional 16 station turret is specified

** Max. Turning diameter is 292mm (11.5 inch) if optional 16 station turret is specified

High performance Y-axis for complex machining

The Y-axis enables the flexible use and application of the machine's rotary milling tools and the ability to machine complex parts (and features) to high accuracy.

Y axis travel

105 (±52.5) mm
4.1 (±2.1) inch

Y axis rapid traverse

10 m/min

MULTI-FACE CUTTING

MILLING IN AN ECCENTRIC POSITION

Y & X-AXIS CIRCULAR INTERPOLATION

SPINDLE

The high power, high-torque spindle motor enables high-precision and heavy-duty cutting, and significant improvements in productivity.

Main spindle

Powerful spindle motor is capable of 0.001degree high-accuracy C-axis control and can provide a large bar capacity up to 81mm(3.2inch)

Max. spindle speed

Lynx 2100LYA/LSYA

TURRET

Servo driven turret indexing increases process reliability and the BMT type milling turret delivers improved rigidity.

Servo-driven turret

The high-torque servo motor controls a) rotational acceleration and deceleration of the turret b) clamping/unclamping operations. Its excellent dividing position ensures consistent high machining accuracies.

* The results, indicated in this catalogue are provides as examples only They may not be obtained in all cases due to differences in cutting and environmental conditions.

TAILSTOCK

Adoption of the hydraulically actuated CNC tailstock (hydraulic type) enables tailstock positioning and work setting to be achieved using the operation panel. The dedicated screen reduces work setting times by about 50%.

CNC Tailstock (Hydraulic Type)

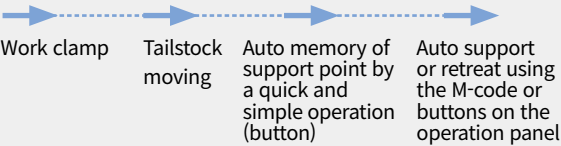

Lynx 2100LYA/LYB/2600Y (standard)

Setting time reduced by

50 %↓

The EZ work System enables fast and easy tailstock positioning and control.

DN SOLUTIONS GANTRY LOADER

The DN Solutions Gantry Loader is compact and easily customizable stand-alone type of automation solution controlled by a motion controller.

* Please contact your DN Solutions representative for detailed machine information.

* When using a semi-synthetic type or synthetic type, contact our sales representative or service center in advance.

● Standard ● Optional X Not applicable

 **Fire Safety Precautions** | There is a high risk of fire when using non-water-soluble cutting fluids, processing flammable materials, neglecting the controlled and careful use of coolants and modifying the machine without the consent of the manufacturer. Always check the SAFETY GUIDELINES carefully before using the machine.

○ : Suitable, △ : Possible, X : Not suitable

Quick change CAPTO OPTION

The Quick Change Tool system simplifies tool change operation. Recommended for users who need to change tools frequently or reduce the set-up time.

Grease lubrication system

The standard grease lubrication system eliminates the need for an oil skimmer and reduces lubrication costs by about 80% compared to oil lubrication.

Yearly maintenance cost

MAX. 80% ↓

Coolant chiller (recommended) OPTION

A coolant chiller is recommended to help prevent temperature rises and to reduce thermal deformation when using a water-insoluble coolant or high-pressure coolant system (i.e., power over 1.5kW).

Axis-tool number display OPTION

Axis-tool 'Number Display' is located inside the machine and it displays real time information to the operator.

Easy-to-clean coolant tank

The coolant tank can be isolated without removing the chip conveyor, significantly enhancing the operator's convenience and overall efficiency.

Tool setter (Manual / Auto) (Tool length measurement device) OPTION

The tool setter facilitates the setting of cutting tools, and can be used to automatically detect and compensate for worn tools.

Part catcher OPTION

The Part Catcher automatically catches finished parts and transfers them securely to downstream processes.

Oil skimmer OPTION

As the Lynx 2100 Series uses a grease type lubricant, the coolant rarely mixes with oil. This optional oil skimmer helps to maintain the exceptional service life of the coolant.

DN SOLUTIONS FANUC i PLUS

DN Solutions Fanuc i Plus maximizes customer productivity and convenience.

15" Screen + New OP

DN Solutions Fanuc i Plus' operation panel enhances operating convenience by incorporating common-design buttons and layout. It features a Qwerty keyboard for fast and easy data input and operation.

DN Solutions Fanuc i Plus

- 15-inch color display
- Intuitive and user-friendly design

USB and PCMCIA card QWERTY keyboard

- EZ-Guide i standard
- Ergonomic operator panel
- 2MB Memory
- Hot keys

iHMI touchscreen OPTION

iHMI provides an intuitive interface that uses a touchscreen for quick and easy operation.

Range of applications

Providing various applications related to planning, machining, improvement and utility, for customer convenience.

SKETCH-TURN OPTION

DN Solutions Conversational programming software for PC

- Easy to learn for beginners
- Time savings in programming
- Reduce processing cycle time

*{}: option

The DN Solutions promise, MACHINE GREATNESS, has two important meanings. The first is simple: DN Solutions makes great machines. The second is a challenge to our end-users. With a product line that is this comprehensive, accurate and reliable, we equip our customers to machine greatness. **The big question: *Why should you choose DN Solutions over other options?***

Here's why...

MACHINE GREATNESS™

WHAT YOU MAKE AND HOW YOU MAKE IT MATTERS—SO MAKE IT GREAT WITH DN SOLUTIONS.

UNBEATABLE MACHINES

You won't find a more comprehensive range or a better combination of value, performance and reliability anywhere else.

ROBUST PRODUCT LINE

We offer an impressive range of machine models and hundreds of configurations. Whatever your machining needs and requirements, there's a DN Solutions for you.

READILY AVAILABLE - ANYWHERE IN THE WORLD

Machining centres (including 5-axis machines), lathes, multi-tasking turning centres and mill-turn machines, and horizontal borers with best-in-class specifications are all available...ready to install.

EXPERT SERVICE

Our dedicated, experienced and knowledgeable team is totally committed to improving your productivity, growth and success.

CUSTOMER SUPPORT AND SERVICES

We're there for you whenever you need us.

We help our customers operate at maximum efficiency by providing them with a range of tried, tested and trusted services - from pre-sales consultancy to post-sales support.

FIELD SERVICES

- On-site service
- Machine installation and testing
- Scheduled preventive maintenance
- Machine repair service

PARTS SUPPLY

- Supplying a wide range of original DN Solutions spare parts
- Parts repair service

TRAINING

- Programming, machine setup and operation
- Electrical and mechanical maintenance
- Applications engineering

TECHNICAL SUPPORT

- Supports machining methods and technology
- Responds to technical queries
- Provides technical consultancy

RESPONDING TO CUSTOMERS

ANYTIME, ANYWHERE

DN Solutions Global Network

DN Solutions provides systems-based professional support services, before and after the machine tool sale, by responding quickly and efficiently to customers. By supplying spare parts, product training, field service and technical support, we provide the expert care, attention and assistance our customers expect from a market leader.

Global sales and service support network

4	Corporations
155	Dealer networks
51	Technical centers Technical Center, Sales Support, Service Support, Parts Support
200	Service posts
3	Factories
